

Necron Thane

One of the earliest questions to arise was how could Necron players have an HQ choice when the only option is the Necron Lord, a 3 wound character. The obvious answer is to adjust the stat line slightly and reduce the points cost, thereby creating a new lesser leader type. Looking at the stats of the Necron Lord there is ample room for reductions. So here it is the answer to your concerns.

	WS	BS	S	T	W	I	A	Ld	Sv
Necron Thane	4	4	4	4	2	3	2	10	3+

The Thane is an HQ Choice and costs 50pts

For an extra 5pts it may be equipped with a Gauss Blaster, or for 10pts a Gauss Cannon. It may have 25pts worth of equipment from the Necron Armoury. The Thane may make We'll Be Back rolls as a Lord would.

This Thane model was created by using the body section and weapon of a Destroyer on a Warrior body. A simple yet effective conversion.

Conversion and painting by Matt Dunt. Not bad for a 9 year old!!
